Interests

Professionally I am interested in providing high value care to my patients in a personal, professional, efficient manner that embraces the use of technology. I truly believe that an effective physician must partner with their patients to optimize health.

Personally I can be found enjoying Colorado life with my wife, 2 sons, and dog. I am an avid skier, mountaineer, climber, photographer, and marathoner. Basically when I am not working I love being outside enjoying the beautiful world in which we live.
